ABOUT ME

Hi, I'm Suraj Kumar Singh, a Cinematographer with a Bachelor's degree in Filmmaking from Mithibai College, Mumbai. Over the years, I've gained extensive hands-on experience as Cinematographer, Associate DP, and AC—working on a diverse range of fiction and non-fiction projects.

Currently, I'm serving as the Cinematographer on two notable upcoming projects:

1. A Long-Format Docu-Series (Travel/Stand-up): This series features comedian Rahul Dua as he journeys across 22 cities in India, blending stand-up performances with real-time travel experiences and behind-the-scenes moments.

2. A Feature Documentary on the Russia-Ukraine War: Produced by Drishyam Films, this project is in its final stages with 95% of principal photography completed and currently in post-production.

I'm passionate about visual storytelling and committed to bringing compelling narratives to life through a strong cinematic lens.

A vibrant, multi-colored decorated Montra Electric Super Auto is parked on a street at night. The vehicle is adorned with intricate patterns in red, orange, and green. In the background, two men and a child are standing near a building decorated with string lights. The scene is illuminated by the warm glow of the streetlights and the cool blue of the night sky.
